

CHOICE OF DELIVERY TERMS

In modern transport systems, goods are not always inspected at points where the risk is transferred according to Incoterms® 2010. To avoid dispute concerning where loss or damage has incurred along the transport chain, it is advisable to agree on terms of delivery where one party bears the risk for the goods during the entire transport.

STATE INCOTERMS® 2010

When making an agreement based on Incoterms, it is advisable to state the terms of delivery agreed on in the contract of sale and commercial invoices e.g. "FOB Gothenburg, Incoterms® 2010". This prevents problems with interpretation which may arise in countries having their own definitions of delivery terms. It recommends the use of Incoterms® 2010 for international shipments and strongly advises against forming own delivery terms.
